I think the proposed language is good. Nice work.

Hey Mark,

To address your general comment on all three documents about avoiding implying that the draft BEs themselves are on a court-ordered deadline we made the revisions below.

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

We'd now like to changes below as found in the draft OPP update, which focuses on the consultation process as opposed to the BEs themselves. Please let me know if you are okay with the revised language or if you have any other comments on the OPP update.

Proposed language:

Ex. 5 - Deliberative Process

Hey Mark,

In Anita's absence, I'm coordinating the review and posting of materials for the carbaryl and methomyl draft BEs.

Ex. 5 - Deliberative Process

Ex. 5 - Deliberative Process

Please find attached the draft version of the FRN,

Instructions for Commenters, and the NAS landing page. I've highlight in yellow the substantive update to the NAS landing page, as well as the section in the Instructions for Commenters with very similar, complementary language. I'm new to this whole process, so not sure how long it would take you to review. Hopefully you have enough time to review by next week. Let me know if you need any other information.

Thanks,

Phil
